## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 10/22/2004 has been entered.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 269-317 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Applicant has provided new language in the new independent claim 269 that does not appear to be supported by the disclosure. The phrase "a plurality of linear strokes" does not appear to be written in the instant specification. It is requested that these claims be cancelled.

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

Art Unit: 1731

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 269-317 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 269, it is not clear what Applicant intends by the recitation "linear strokes", i.e. is this opposite of "angular" strokes? Also, Applicant recites metering loose tobacco "by reciprocating" thought a plurality of linear strokes, but it is not clear what is being reciprocated, i.e. the tobacco? a metering member?

Clarification is requested.

#### ***Allowable Subject Matter***

6. Claims 105-268 are allowed, for the same reasons claims 57- 104 were allowable in the prior Office Actions/Notice of Allowance.
